What Type of Testing Is Included?

Heart disease is the #1 killer in the nation, followed by cancer, stroke, and diabetes. Preventative screening saves lives. Routine health screening can ensure that common serious diseases and conditions are detected.

With early treatment, lives can be saved.

The health screening tests the following:

- **COMPREHENSIVE METABOLIC PANEL (CMP)**
This panel gives your doctor important information about the current status of your kidneys, liver, electrolyte, and acid balance as well as your blood sugar and blood protein levels.
- **LIPID PROFILE**
Measures cholesterol, triglycerides, HDL and LDL
- **COMPLETE BLOOD COUNT (CBC)**
Screens for anemia, infection, and many other diseases.
- **THYROID STIMULATING HORMONE (TSH)**
Screens for hyperthyroidism or hypothyroidism by evaluating thyroid function.
- **URIC ACID**
This test is used to screen for gout.
- **PROSTATE CANCER SCREENING** (men only)

How Much Does It Cost?

Invest Wisely In Your Health

Typical screening fees could cost you up to \$300. By using the Northeast Florida Health Screening, your potential savings could be up to \$245!

The Northeast Florida Health Screening is available for only \$55.

For men only, an additional PSA screening is available for only \$20.

Visa, MasterCard, Amex, Discover, Cash and Checks are acceptable forms of payment.

The Clay County Chamber of Commerce is not responsible for the validity of the blood test results.

This screening is made possible by the generosity of the Clay County Chamber of Commerce and Consolidated Laboratory Services.
